Note 1. - Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Enact Mortgage Insurance Corporation of North Carolina (the "Company") have been prepared on the basis of accounting practices prescribed by the North Carolina Department of Insurance ("NCDOI"). The state of North Carolina requires insurance companies domiciled in the state of North Carolina to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the NCDOI.

B. No significant change.

C. Accounting Policies

Loan-backed bonds and structured securities ("LBaSS") other than non-agency residential mortgage-backed securities are stated at amortized cost using the modified scientific method, except where NAIC designation has fallen to 3 or below and the fair value has fallen below amortized cost, in which case they are stated at fair value. Amortization of LBaSS is based on prepayment assumptions that are updated at least annually. Significant changes of estimated cash flows from original purchase assumptions are accounted for using the retrospective adjustment method for all such securities, except for securities for which the Company recorded other-than-temporary impairment charges. In such instances, the prospective method is used.

D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Company's ability to continue as a going concern.

Note 2. - Accounting Changes and Corrections of Errors

No significant change.

Note 3. - Business Combinations and Goodwill

No significant change.

Note 9. - Income Taxes

In August 2022, the Inflation Reduction Act of 2022 ("Act") was passed by the US Congress and signed into law by President Biden. The Act includes a new Federal alternative minimum tax ("AMT"), effective in 2023, that is based on the adjusted financial statement income ("AFSI") set forth on the applicable financial statement ("AFS") of an applicable corporation. A corporation is an applicable corporation if its rolling average pre-tax AFSI over three prior years (starting with 2020-2022) is greater than \$1 billion. For a group of related entities, the \$1 billion threshold is determined on a group basis, and the group's AFS is generally treated as the AFS for all separate taxpayers in the group. Except under limited circumstances, once a corporation is an applicable corporation, it is an applicable corporation in all future years.

An applicable corporation is not automatically subject to an AMT liability. The corporation's tentative AMT liability is equal to 15% of its adjusted AFSI, and AMT is payable to the extent the tentative AMT liability exceeds regular corporate income tax. However, any AMT paid would be indefinitely available as a credit carryover that could reduce future regular tax in excess of

The controlled group of corporations of which the Company is a member has determined that it likely will not be an applicable corporation in 2023. In making such determination, the group has made certain interpretations of, and assumptions regarding, the AMT provisions of the Act. The US Treasury Department is expected to issue guidance throughout 2023 that may differ from the group's interpretations and assumptions and that could alter the group's determination.

C. Other Disclosures

During the second quarter of 2023, the United States economy faced uncertainty due to continued inflationary pressure, the geopolitical environment, the aftermaths of both highprofile banking failures during the first quarter of 2023 and the potential debt ceiling default, and fears of a possible recession. Inflationary pressures continued to lessen in the second quarter of 2023, with the Bureau of Labor Statistics reporting in June that the Consumer Price Index was down to 3.0% year-over-year. The Federal Reserve has taken an aggressive approach towards addressing inflation through interest rate increases and a reduction of its balance sheet. The Federal Reserve raised rates by 25 basis points in July 2023, following a brief pause on interest rate hikes in June 2023. The Federal Reserve had previously announced 25 basis point increases in interest rates in both May and March 2023 and eight interest rate increases in 2022.

The unemployment rate as of June 30, 2023, was 3.6%, up slightly from the first quarter of 2023. As of June 30, 2023, the number of unemployed Americans stands at approximately 6.0 million and the number of long-term unemployed Americans (over 26 weeks out of the workforce) was approximately 1.1 million. Both metrics remain relatively in line with February 2020 levels. The full impact of COVID-19 and its ancillary economic effects on the Company's future business results continue to be difficult to predict. Given the maximum length of forbearance plans, the resolution of a delinquency in a plan may not be known for several quarters. The Company continues to monitor regulatory and government actions and the resolution of forbearance delinquencies. While the associated risks have moderated and delinquencies have declined, it is possible that COVID-19 could have an adverse impact on the Company's future results of operations and financial condition.

Note 25. - Changes in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2022, were \$590,468. For the six months ended June 30, 2023, \$24 was paid for incurred loss and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$432,411 as a result of re-estimation of unpaid loss and loss adjustment expenses. Therefore, there was a \$158,033 favorable prior year development from December 31, 2022, to June 30, 2023. The change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
