

Primary Delinquency Rollforward – September 2021

October 13, 2021 - Enact Holdings, Inc. and its mortgage insurance subsidiaries today released their monthly operating statistics related to credit performance of their insurance portfolio for the month of September 2021. The information includes total primary delinquencies, new delinquencies, cures and claims paid. New delinquencies and cures are reported to us by loan servicers. We consider a loan to be delinquent when it is reported to us by the loan servicer as two or more mortgage payments past due. Delinquency reporting, particularly on a monthly basis, may be affected by several factors including, but not limited to, the date on which the servicer's reporting is generated and transmitted to us, the number of business days in a month, the impact of updated information submitted by loan servicers and transfers of servicing between loan servicers. The incidence of delinquency is affected by a variety of factors, including but not limited to, a borrower's reduction of income, unemployment, underemployment, divorce, illness, inability to manage credit, a change in interest rate levels or home values that reduce a borrower's willingness or ability to continue to make mortgage payments and macroeconomic conditions, including the impact of the COVID-19 pandemic.
