## Second Quarter 2022

Financial Supplement

## GAAP/Non-GAAP Disclosure Discussion

This document includes the non-GAAP financial measures entitled "adjusted operating income (loss)," "adjusted operating income (loss) per share," and "adjusted operating return on equity." Adjusted operating income (loss) per share is derived from adjusted operating income (loss). The chief operating decision maker evaluates performance and allocates resources on the basis of adjusted operating income (loss). Enact Holdings, Inc. (the "Company") defines adjusted operating income (loss) as net income (loss) excluding the after-tax effects of net investment gains (losses), restructuring costs and infrequent or unusual non-operating items. The Company excludes net investment gains (losses) and infrequent or unusual non-operating items because the Company does not consider them to be related to the operating performance of the Company. The recognition of realized investment gains or losses can vary significantly across periods as the activity is highly discretionary based on the timing of individual securities sales due to such factors as market opportunities or exposure management. Trends in the profitability of our fundamental operating activities can be more clearly identified without the fluctuations of these realized gains and losses. We do not view them to be indicative of our fundamental operating activities. Therefore, these items are excluded from our calculation of adjusted operating income. In addition, adjusted operating income (loss) per share is derived from adjusted operating income (loss) divided by shares outstanding. Adjusted operating return on equity is calculated as annualized adjusted operating income for the period indicated divided by the average of current period and prior periods' ending total stockholders' equity.

While some of these items may be significant components of net income (loss) in accordance with U.S. GAAP, the Company believes that adjusted operating income (loss) and measures that are derived from or incorporate adjusted operating income (loss), including adjusted operating income (loss) per share on a basic and diluted basis and adjusted operating return on equity, are appropriate measures that are useful to investors because they identify the income (loss) attributable to the ongoing operations of the business. Management also uses adjusted operating income (loss) as a basis for determining awards and compensation for senior management and to evaluate performance on a basis comparable to that used by analysts. Adjusted operating income (loss) and adjusted operating income (loss) per share on a basic and diluted basis are not substitutes for net income (loss) available to Company's common stockholders or net income (loss) available to Company's common stockholders per share on a basic and diluted basis determined in accordance with U.S. GAAP. In addition, the Company's definition of adjusted operating income (loss) may differ from the definitions used by other companies.

Adjustments to reconcile net income (loss) available to Company's common stockholders to adjusted operating income (loss) assume a $21 \%$ tax rate.

## REVENUES:

Premiums
Net investment income
Net investment gains (losses)
Other income
Total revenues

## LOSSES AND EXPENSES:

## Losses incurred

Acquisition and operating expenses, net of deferrals
Amortization of deferred acquisition costs and intangibles Interest expense
Total losses and expenses
INCOME BEFORE INCOME TAXES
Provision for income taxes
NET INCOME

Net investment (gains) losses
Costs associated with reorganization
Taxes on adjustments
Adjusted Operating Income

${ }^{(1)}$ Direct primary case reserves exclude loss adjustment expenses, incurred but not reported and reinsurance reserves.
${ }^{(2)}$ Calculated as the sum of the number of policies where claims were ever paid to date and number of policies for loans currently in default divided by policies ever in-force.
${ }^{(3)}$ Jurisdiction predominantly uses a judicial foreclosure process, which generally increases the amount of time it takes for a foreclosure to be completed.
${ }^{(4)}$ Includes the District of Columbia.

## 1 The Total Primary Risk In Force Is $\$ 59.9 \mathrm{~B}$ And The Total Current Risk In Force Covered By A CRT Is $\$ 55.8 \mathrm{~B}$;

2 Attachment \% And Detachment \% Are The Aggregate Loss Amounts As A Percentage Of Risk In Force At Which The Reinsurer Begins And Stops Paying
Claims Under The Policy;
3 Current PMIERs Required Asset Credit Considers The Counterparty Credit Haircut;
4 Incurred Losses Ever To Date Shown Does Not Include IBNR Or Loss Adjustment Expenses;
Definitions: CRT = Credit Risk Transfer; RIF = Risk In Force; XOL = Excess Of Loss; ILN = Insurance Linked Note

${ }^{(1)}$ Adjusted RIF for purposes of calculating combined statutory RTC differs from RIF presented elsewhere in this financial supplement. In accordance with North Carolina Department of Insurance requirements, adjusted RIF excludes delinquent policies.
${ }^{(2)}$ Enact Mortgage Insurance Corporation (EMICO), the company's principal U.S. mortgage insurance subsidiary
${ }^{(3)}$ The PMIERs sufficiency ratio is calculated as available assets divided by required assets as defined within PMIERs. The current period PMIERs sufficiency ratio is an estimate due to the timing of the PMIERs filing and does not take into consideration the impact of restrictions recently imposed by the government-sponsored enterprises (GSEs). The GSEs have imposed certain capital restrictions on the company which remain in effect until certain conditions are met. These restrictions required EMICO to maintain $115 \%$ of published PMIERs minimum required assets among other restrictions as of December 31, 2021. Effective January 1, 2022, these requirements increased to $120 \%$.

[^0]:    ${ }^{(1)}$ Calculated as annualized net income for the period indicated divided by the average of current period and prior periods' ending total stockholders' equity.
    ${ }^{(2)}$ Calculated as annualized adjusted operating income for the period indicated divided by the average of current period and prior periods' ending total stockholders' equity.

[^1]:    ${ }^{(1)}$ Nationally Recognized Statistical Rating Organizations.
