### NOTES TO FINANCIAL STATEMENTS

#### Note 1. - Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Enact Mortgage Insurance Corporation of North Carolina (the "Company") have been prepared on the basis of accounting practices prescribed by the North Carolina Department of Insurance ("NCDOI"). The state of North Carolina requires insurance companies domiciled in the state of North Carolina to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the NCDOI.

B. No significant change.

#### C. Accounting Policies

Loan-backed bonds and structured securities ("LBaSS") other than non-agency residential mortgage-backed securities are stated at amortized cost using the modified scientific method, except where NAIC designation has fallen to 3 or below and the fair value has fallen below amortized cost, in which case they are stated at fair value. Amortization of LBaSS is based on prepayment assumptions that are updated at least annually. Significant changes of estimated cash flows from original purchase assumptions are accounted for using the retrospective adjustment method for all such securities, except for securities for which the Company recorded other-than-temporary impairment charges. In such instances, the prospective method is used.

D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Company's ability to continue as a going concern.

A. - B. No significant change.

#### C. Other Disclosures

During the first quarter of 2022, the United States and global economies experienced new headwinds due to geopolitical uncertainty that increased global shortfalls in supplies of energy, food and raw materials. Combined with a renewed coronavirus pandemic ("COVID-19") outbreak in China and subsequent shutdowns across the country, inflationary pressures rose in the first quarter of 2022 with the Bureau of Labor Statistics reporting in March that the Consumer Price Index increased by over a percentage point to 8.5% year-over-year. As a result, the Federal Reserve has indicated a more aggressive approach towards addressing inflation through rate increases and a reduction of its balance sheet and approved an interest rate increase of 0.25% in March of 2022. Financial markets have reacted with increased volatility and rates have increased across the Treasury yield curve.

The unemployment rate has continued to decrease since the beginning of COVID-19 and was 3.6% in March 2022. Unemployment is relatively in line with the pre-COVID-19 level of 3.5% in February 2020, and has steadily decreased from a peak of 14.8% in April 2020. After the continued recovery in the first quarter of 2022, the number of unemployed Americans stands at approximately 6 million, which is 0.3 million higher than in February 2020. While the impact of COVID-19 is very difficult to predict, the ultimate impact on the Company's business will depend on the length of COVID-19 and speed of the economic recovery. The Company will continue to monitor developments and the potential financial impacts on its business. As of March 31, 2022, the Company had not experienced any significant financial impact resulting from COVID-19.

The Company changed its name to Enact Mortgage Insurance Corporation of North Carolina effective February 7, 2022.

#### Note 25. - Changes in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2021, were \$56,378. For the three months ended March 31, 2022, \$2 was paid for incurred loss and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$84,899 as a result of re-estimation of unpaid loss and loss adjustment expenses. Therefore, there was a \$28,523 unfavorable prior year development from December 31, 2021, to March 31, 2022. The change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
